# EXPO REAL at a glance

Taking place annually in Munich in early October, EXPO REAL is Europe's most important real estate fair. As the international marketplace for initiating new property projects and investment plans, EXPO REAL brings together key decision-makers to network and to make deals.

Together with the 196+ forum Munich – taking place in parallel – EXPO REAL has become a prime meeting spot for the hospitality sector.

Hall A1 is dedicated to hospitality investment. The 196+ lounge is the largest and most-visited meeting place within the hospitality area.

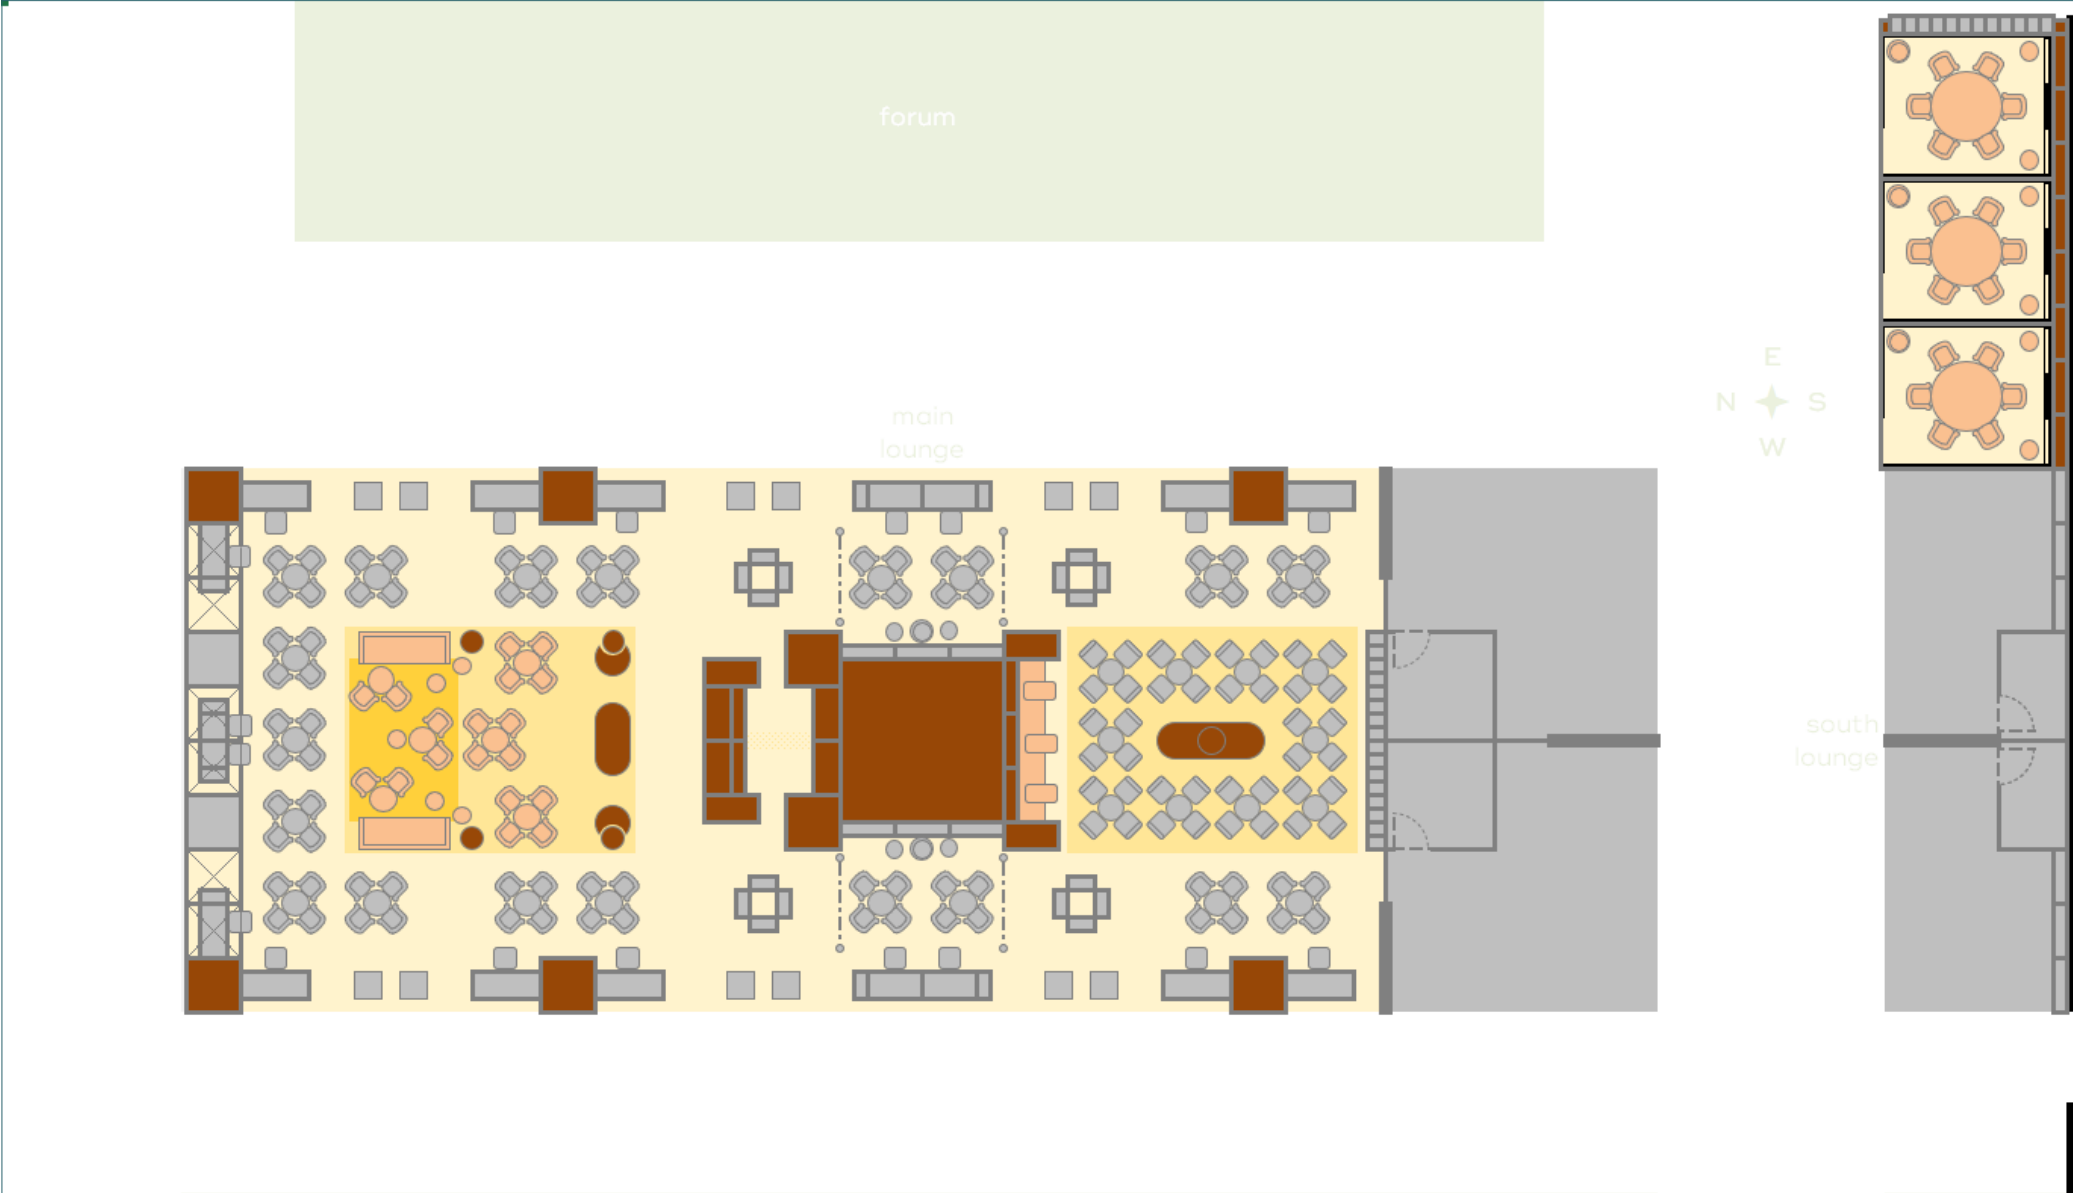

Its warm atmosphere provides an ideal setting for networking. The cosy and stylish design and a helpful stand team are all part of our all-inclusive, worry-free package – so you can focus on your meetings.

# exhibitors I

# exhibitors II

1	location, location, location: the 196+ lounge extends over 480m <sup>2</sup> (the largest lounge at EXPO REAL dedicated to the hospitality sector) in hall A, where most hospitality-related companies are placed	✓
2	planning & building ease: Organiser coordinates all planning and construction – you get a complete worry-free package and you can arrive at the fair relaxed and ready for business	✓
3	style: The 196+ lounge is like no other space at EXPO REAL: soft carpets, good lighting, cosy design with wooden elements and stylish furniture evoke a hotel lounge, not a bland fair stand	✓
4	only the best: we have teamed up with some of the leading interior design suppliers, including JAB (carpets), Nitesco (seating), Occhio (lighting), Vitra (bespoke furniture) and Wanzl (storage)	✓
5	clever details: a digitised storage locker system (DigiLock/Häfele), built-in AC sockets/USB-C plugs in all stands (GIRA), LED-backlit logos, hospitality-inspired artworks (Artoui) & glass-printed photography	✓
6	sustainability: for 20 years, we use the modular PON system by Burkhardt Leitner as the backbone of the stand construction; except banners and some printed logos, all materials are re-used year-by-year	✓
7	the full monty: all you could think of (plus some more) is included – security, cleaning, tips (for service & stand builders), logo printing, storage facilities, two large meeting rooms with monitors, a wardrobe, etc.	✓
8	fringe benefits: you can participate at (and invite guests to) the stand party, you get an invitation to the PKF dinner @ Seehaus (running for 20 years+) and you get special discounts for other 196+ events	✓
9	it's the economy, stupid: by pooling resources, you get an overall package which is probably significantly more efficient in terms of cost and staff resources than a stand-alone fair participation	✓

*regular extra fees charged by the fair (exhibitor fee, communication fee) are included;  
not included: entrance tickets EXPO REAL (any number of tickets can be ordered at a significantly reduced price)*

sustainability	for a better future: we use porcelain, glass and stainless steel for serving food & drinks (no disposable packaging); we serve (excellent) filtered Munich tap water; we use selected Fairtrade products, etc.
equipment	for smooth operations: we have a fully equipped kitchen (with refrigerators, wine coolers, oven, dishwasher, etc.), a Berkel ham slicer, <b>a Berkel stand for Parmigiano Reggiano cheese wheel</b>

*all elements are subject to change*

# pricing – alternatives & stability

## two alternative termination periods

Each stand requires to some degree customisation – starting with branding and logos. Our goal is to have a stable roster of co-exhibitors.

We offer two distinctive contract models: the **standard model**, with 12 months termination period – and the **advanced model**, with 24 months termination period. Both contract types can be cancelled at any day of the year (month's end), just the termination period differs. If a Partner, for example, terminates a standard contract in July, the 196+ lounge @ EXPO REAL in this year is not affected but in the following year, the Partner is not participating. In case of the advanced option, said termination would take effect after the following year's event.

As the advanced option gives us more planning security, we pass on our cost saving and grant a significant discount of 20%.

## stable fee for five years

In both cases (standard and advanced option), we give a commitment of price stability. If neither Partner nor Organiser cancels the contract, there will be no indexation during the first five years of the agreement, i.e. Organiser assumes the risk of inflation and price increases.

After five years, an inflation-adjustment is made (based on the percentage change of the Austrian CPI from the year of the first event until the year of the third event) and annually in the years thereafter (based on the annual percentage change of the Austrian CPI).
